

Medically Fragile Children’s Foundation of Northern California Disbursement Request Form

The mission of the Medically Fragile Children’s Foundation of Northern California (MFCFNC) is to serve children (up to 21 years of age, who require medical technology and intervention to sustain life, and connect them with the innate experiences associated with growing up, just as their peers without such limitations experience. The MFCFNC supports children who reside in Santa Clara County California and its surrounding areas, and are consumers of Medi-Cal’s “pediatric subacute care”, and/or pediatric day health center” programs, or similar services. We aim to uphold our mission through a five-point BUILD philosophy:

- **Boosting** community awareness and support of each child’s unique spirit and needs regardless of disability, ethnicity, socioeconomic status, and/or religion
- **Utilizing** funds and resources to support childhood experiences and life enhancing equipment that are not normally expected to be covered by a hospital/center and being financially accountable by maintaining transparency to all stakeholders
- **Improving** quality of life by making typical childhood experiences more accessible: engaging in hobbies, celebrating life events (milestone birthdays, graduations), and recreating (going to concert/movies, sporting events, the park, the mall, etc.)
- **Limiting** barriers that impede a child’s ability to live as normal a life as possible
- **Decreasing** financial burden associated with a child’s disability and illness on the family.

If you know of a technology dependent child serviced by Medi-Cal or a program or group servicing Medi-Cal funded, technology dependent children in Santa Clara County California, or its surrounding area, that you believe could benefit from our services please fill out one of the attached forms.
